Sunland Operations Earn ISO Certification

The Sunland Logistics Solutions team is pleased to announce it successfully underwent a series of ISO audits in December resulting in multiple Sunland operations earning an ISO 9001 certification status. The scope of the certification includes transportation; warehousing, packaging services for automotive, and industrial customers at Sunland's Trinity facility, and consumer care products at the 3PL's Harrison Bridge Road facility. The audits were conducted by external auditing firm, NSF.

As described on the ISO.org website, "ISO 9001:2008 sets out the criteria for a quality management system and a standard based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. Using ISO 9001:2008 helps ensure that customers get consistent, good quality products and services, which in turn brings many business benefits."

About Sunland Logistics Solutions: A third party logistics company with over thirty years experience based in South Carolina, Sunland Logistics Solutions, Inc. serves the needs of companies primarily in the chemical, automotive, retail/ e-commerce, and paper industries; and specializes in providing warehousing and value added services.
